Introduction

Evaluation allows measuring the performance of the user by using

- Quizzes

- Surveys

- User Defined Evaluation

To have access to the evaluation tool you need to be part of an **organization**, creating organization and managing users in an organization is done through **SimLab Admin**, which is included in **SimLab Composer/VR Studio**.

VR Experiences can be distributed to end users using **SimLab VR Viewer**, or **LMS** (Learning Management System). Any **LMS** supporting **xAPI (Tin Can)** or **Scorm** can be used to distribute VR Experiences to users

In case of no LMS system available, **SimLab VR Viewer** can be used. It includes all what is needed to distribute VR Experiences and VR based Training.

After users run the experience, results can be accessed using **SimLab Admin**.

- Getting started with VR Evaluation

- Creating Quiz

- Creating Survey

- Pre/Post Question Events

- Creating User Defined Evaluation

- Distributing VR experiences

- Viewing results

- Advance xAPI LRS settings
