

Creating Quiz

Each Quiz created using VR Studio may include one or two types of questions

1- **Multiple Choice Question**

2- **Interactive Question**

In a **Multiple Choice Question** the student needs to select the correct answer from any number of choices (from 2 for true/false question, to any number of choices defined by instructor)

In an **Interactive Question** the student should select the correct 3D model representing the correct answer

For the Quiz the teacher can determine the time allows for the student. If the student did not submit answers before this time, answers will be automatically submitted by the end time. The teacher has the option of keeping time open.

VR experience can have one or multiple quizzes and/or surveys. The teacher can determine when a quiz or survey is started, the VR experience can show material then run a quiz, or it can start with a quiz of survey

The following tutorial shows how to create a quiz using **VR Studio**
