

Introduction

In this article we are going to talk about [SimLab VR Warehouse](#). We will talk about Its uses, how it can help VR creators, and how designers can use it to make money as well.

What is SimLab VR Warehouse?

Its a **market of VR experiences**, Designers can publish and sell their VR experiences to SimLab users. SimLab users can find great VR experiences ready to be used or edited. the main difference between the VR warehouse and other 3D libraries or stores, In the VR warehouse you will find full experiences not just 3D models, Experiences ready to be consumed on VR, interactive stories, training sessions, and more.

You can find both PAID and FREE experiences in high quality since all uploaded VR experiences are being processed and tested before publishing.

Where to find it?

SimLab VR Warehouse is available inside [SimLab VR Studio](#) and [SimLab Composer](#). You can find it under the **Libraries** tab.

How to use it?

We can divide the use of SimLab VR Warehouse into two main categories as follows:

Buying and downloading VR

experiences

SimLab VR Studio and Composer users can download and purchase VR experiences through SimLab VR Warehouse.
